

# DOUBLE-SHAFT SLOW-SPEED SHREDDER

## PRONAR MRW 2.85g

- Various shafts & breaking bars configurations
- Versatile thanks to tracked chassis
- Simple to operate
- Great when there is little space
- Compact, yet efficient
- Quick startup

**Pronar MRW 2.85g shredder** is a well thought out machine with ability to work in the most remote corners of the world – not only in Europe, but also in Russia, Japan, South Korea, Australia or Mexico. Customers value its great price to performance ratio, high efficiency and solidity of the structure. The tracked chassis allows for easy movement and work even in difficult terrain. Shredders Pronar MRW 2.85g are well equipped right from the start. They come as standard with remote, central lubrications system or reversible fan on both hydraulic oil and engine radiators. Various configurations of shafts and breaking bars underneath them allow to adjust the size of the obtained fraction.

### PARAMETERS

Overall dimensions (length/width/height) [mm]	7750/2550/3240
Weight [kg]	27000
Chassis	tracked
Number of working shafts	2
Working shafts dimensions (length/diameter) [mm]	1750/685
Loading height [mm]	3020
Hopper capacity [m3]	3
Engine	CAT C9.3B 310 kW' (Stage V), CAT C9 280 kW (Stage IIIA)
Fuel tank [l]	700
